## Bronx Project-008-A, (BP-008-A)

Dubbed by Wallace Carroll and others, the secret to “psychological fusion,” the Bronx Project unravels the vague, and often obscure meanings of these Psychological Warfare terms, methods, and intent. Torture, Regime Change, False Positives, and the Internal Enemy Doctrine: Social Cleansing & Eugenics in 21<sup>st</sup> Century Americas.

---

*"It is not a dream of motor cars and high wages merely, but a dream of social order in which each man and each woman shall be able to attain to the fullest stature of which they are innately capable, and be recognized by others for what they are, regardless of the fortuitous circumstances of birth or position." -James Truslow Adams, 1931*

The acts of 11 September 2001, were an “*autogolpe*”<sup>1</sup> which resulted in the suspension of the U.S. Constitution, and permanently Balkanized the United States; in ways which it will never recover from.<sup>2</sup>

U.S. Federal military budgets are being used to target, and engage former American citizens in both domestic, and foreign operations which involve use of lethal force; without Due Process or possibility of habeas corpus.<sup>3</sup>

This new form of Governance is known as National Socialism, and is an economic ideology based around the concept of human beings as chattel. This doctrine developed at the turn of the 20<sup>th</sup> century pursuant to the Industrial Revolution, and economic management of resources, including Human, known as “Manpower,” or Arbeitskräft. This was facilitated by the Institute for Human Relations, National Security Resources Board, and Defense Production Act, including New Deal Executive orders creating eg. the Science Advisory Board. These ideologies developed alongside, and were informed by the Eugenics movement; including proponents such as Maynard Keynes, and Irving Fisher, (Keynesian Economics.)

This also involves a new form of discipline, or punishment outside of Due Process protections called Threat Management; as an enforcement mechanism, for this new regime;<sup>4</sup> which required new legal arrangements, in addition to surveillance methods, deployed shortly after 9/11.

TAM<sup>5</sup> procedures are similar to a form of operant conditioning designed to either ensure compliance to the new regime, or calculated to cause permanent, and debilitating health problems<sup>6</sup>

---

1 Pastor, Gustavo, “Los veinte años del ‘autogolpe’ de Fujimori: el surgimiento del ‘fujimorismo’”, Amerique Latine Political Outlook, SciencesPo: Opalc, 2012.

2 (It is impossible for a social caste of persons whom personally profit and make their living from torture, rape, and slavery, to live peacefully alongside a separate caste of victims, whom have no recognized, or enforceable civil or human rights.)

3 (The United States has been in a permanent state of Wartime Emergency, *nondum cessante bello*, and Civil War since the passage of the Authorization for Use of Military Force; which suspended the U.S. Constitution, for the first time since the cessation of the U.S. Civil War of 1867; and passage of Posse Comitatus Act.)

4 Unsuccessful regimes which cannot stay in power democratically, resort to the use of force, including deception, and censorship to maintain Hegemony.

Also see:

‘State Repression, and Political Violence’

5 “Threat Management” of lower races, social castes, political, and business opponents.

for those whom do not quickly, and immediately comply, (compliance under stress;)<sup>7</sup> as a policy instrument.<sup>8</sup>

Because the stimulus which TAM exposes victims to, is random, and unconditioned, (in addition to humiliating, and unaddressable,)<sup>9</sup> it causes a form of what is called Learned Helplessness; and Experimental Neurosis. Both of which were concepts studied during the 1940's, and 1950's in laboratory animals, and Prisoners of War;<sup>10</sup> and followed up on in numerous studies well into the 1970's. These methods were also deployed previously by CIA, during it's MHCHAOS, domestic spying program,<sup>11</sup> which disrupted protest groups; through the Office of Security.

These programs specifically target University students, and political organizations which pose a potential threat to on campus recruiting efforts; which became a major problem during the Vietnam war. –Recruiting efforts, which can be classified as matters of National Security pursuant to the Manpower doctrine.

These methods & intent were outlined by Wallace Carroll,<sup>12</sup> in a classified report, first published in 1949,<sup>13</sup> *The Army's Role in Current Psychological Warfare*.

Ethnic minorities, political dissidents, and the underemployed are being targeted;<sup>14</sup> and replaced with cheap foreign labor from abroad.<sup>15</sup>

The new Government, which has replaced the former U.S. Constitutional system of representative democracy, is Aristocratic, and loyal to the Crown of Europe. It has extended its protection over subjects of Europe, and withdrawn it from certain [former] American citizens; while it hunts those who try to escape, under doctrines of extra-territoriality.

---

6 Threat Assessment Management procedures cause in otherwise healthy persons, a variety of medical disorders, including Schizophrenia, which is concealed by use of 19<sup>th</sup> century medical methodology developed by Emil Kraepelian who theorized all social and political deviance was the result of genetic abnormalities inherent in non-white races, and lower classes; in contrast to the later theories of Freud who proposed that such inner turmoil was the result of environmental stressors, and trauma, [Hohman, Leslie B. (1929).] These facts are concealed pursuant to *Military Audit Project vs. Director of CIA*, 1981.

12 Also an employee of the Winston-Salem North Carolina group.

13 Referenced in: Paddock, Alfred H., "US Army Special Warfare: Its Origins," Defense Technical Information Center, ADA118758, 1982.

14 HudsonRA1999-001, Lykaion Publishing, 2022.

15 Also see: *International Political Economy*,

The regime which instituted these policies, including Thomas Kean Sr., author of the 9/11 Commission Report, are all related to the same Dutch slave trading family,<sup>16</sup> former plantation owners, associated with the British aristocracy, involved in the transatlantic slave trade, and “Big Tobacco,” (RJR Tobacco, British American Tobacco,) conglomerates; including banking firms such as Wachovia. These families have historically resided in areas such as Winston-Salem North Carolina, Richmond Virginia, Westchester New York, Colorado Springs Colorado, and Yale University, Connecticut. –More recently tied to the Lyndon B. Johnson, Gerald R. Ford, Nixon, and Bush administrations,<sup>17</sup> (and were historically associated with the Confederacy; in addition to NAZI regime, of Germany.)

Similar *Golpe de Estado* have been deployed in Latin American countries,<sup>18</sup> by the United States Intelligence Community, pursuant to the ‘Internal Enemy Doctrine’, and have resulted in the overthrow of several democratically elected Governments, and installation of dictators whom have engaged in forcible sterilization, and mass murder of indigenous peoples, between 1948,<sup>19</sup> and present. Such Anglo-American led puppet regimes, which employ methods of slavery,<sup>20</sup> were famously the cause of Cuba’s revolution.

This is what has been referred to as the “New Order,” (as early as the 1940’s, and recently as 2022,)<sup>21</sup> which is misleading, in that it is no different from 16<sup>th</sup> century colonial doctrines of Europe, founded upon the philosophy of European, or “White” Supremacy. It has also resulted in the unification of Europe under the “Paneuropean,” doctrine or European Union; which was in planning before the end of World War II, and now today supported by NATO. All NATO member states, engage in these types of “Continental Policing,” methods, which assert different rights to different sects of society. (Supporting these doctrines within the U.S. is considered a form of high Treason, and punishable by death.)<sup>22</sup>

---

16 The history of the United States Intelligence Community / CIA can be traced through [temporal] network analysis technology to the following interrelated family: Livingston, Ten Eyck, (also known as Roosevelt, Rockefeller, Gray, Dulles, Fosdick, Foster, Finlay, Lorillard, Forbes, and Bush.)

Modern, weighted SNA counterterrorism technology was used to develop the database used in the Bronx Project. Also see:

"REPUBLICAN MASS MEETING IN JERSEY CITY," NYTIMES, 6 September 1860.

17 Based primarily on oral histories held at U.S. Presidential libraries; although genealogical research is outside the scope of the Bronx Project, we welcome additional comment.

Also see: “Dixiecrats,” such as eg. the Clinton dynasty.

18 And elsewhere, known as *Regime Change*.

Wolf v. C.I.A, 473 F.3d 370

20 Additional literature on legal Regimes of Slavery, Abolition, and Radicalization in the United States should be provided in future editions; (too extensive to reasonably document here.)

It also begs the question: *Does Slavery Make America Safer?*

21 In modern literature this phrase is directly associated with German writers, describing in English, National Socialism; however it’s use is preceded in the Great Seal of the United States by over a century, in Latin. Use of this epigram could potentially be interpreted as a criminal signature; denoting ideologically motivated behavior, or grandiosity.

Also see:

Glad, Betty. "Why tyrants go too far: Malignant narcissism and absolute power." *Political Psychology* 23.1 (2002): 1-2.

22 Also see: Misprison of Treason; UCMJ Article 99 & 100

## **The Bronx Project was created to answer three basic questions:**

1) What is Enhanced Interrogation (Clean Torture,) how is it accomplished, what are it's goals?

2) What drives perpetrators, and defines victims of torture?

*As ideologically motivated violence; and outline reliable scales. With particular emphasis on cases which have overt, or latent State support; [as Privatized Violence & Failed States].*

Although J. R. Meloy & the Federal Research Division (RA Hudson 1999,) have asked the question, answers have not been satisfactory; and there exist disabling conflicts within CIA. Answers to these questions may be held in private, but have not been published yet publicly.

3) As a matter of Political Science, what kind of social norms, or structure permits such human rights abuses to occur?<sup>23</sup>

Additionally, we can ask about econometric social modeling of the U.S. polity, and extrapolate trends from recent past to near future; including fascinating historical context, and background of these programs, beginning in the period between ca. 1914-1929.

We have found satisfactory explanations to these queries, which are currently being detailed in this ongoing series of reports, which will eventually be compiled into a larger volume, "*Stress and it's applications in Counterinsurgency Warfare.*"

---

## **Forensic Documentation of Torture:**

Once suffering reaches a level where a person dissociates, (*ego-fragmentation*,) as a result of pain, and stress, psychological, or physical, it reaches the legal / clinical definition of torture.<sup>24</sup>

This Ego-fragmentation, is also known as dislocation, or artificially induced, non-endogenous schizophrenia.

The American Legal & Medical community, have not prioritized the definition, categorization, documentation, or prosecution of these crimes, since their widespread outbreak, pursuant to Bush era U.S. Department of Justice memos, authorizing the use of torture, against American citizens, after 11 September 2001. Nor does the U.S. Department of Justice have a division tasked with enforcing these statutes, which does not have disabling conflicts.<sup>25</sup>

The U.S. Congress has refused to intervene, and threatens incarceration for any person making complaints regarding rape, torture, abuse and human trafficking by Federal components.

---

<sup>23</sup> Also see: Arendt, Hannah. "Eichmann in Jerusalem: A Report on the Banality of Evil." 1963.

<sup>24</sup> Also see: U.S. Department of Justice Memo for Alberto R. Gonzales, dated 1 August 2002, "Re: *Standards of Conduct for Interrogation under 18 USC 2340-2340A. . . specifically intended, must be inflicted with specific intent, severe pain or suffering, severe pain, sufficiently serious physical, death organ failure or serious impairment, prolonged harm resulting from: (D) the threat that another person will imminently be subjected to death, severe physical pain or suffering or the administration or application of mind-altering substances or through procedures calculated to disrupt profoundly the sense or personality. . .*", (et al.)

<sup>25</sup> (The DOJ National Security Division engages in Torture, Extra-Judicial [targeted] killings, aka *Death Squads*, and is also tasked with enforcing Torture & Human Rights abuse statutes.)

Mitchell, Ronald B. et al, "Analyzing International Environmental Regimes From Case Study to Database," [University of Oregon,] MIT, 2006.

## Notes on Supporting Methodology, (legal Regimes of Slavery, Rape, Torture):

21<sup>st</sup> Century America as a neo-primitive society.

It is possible, to induce in an otherwise healthy person, a state of *schizokinesis*, by overwhelming stress & pain; beyond a persons ability to cope, and adapt. The presence of a schizophrenic state, does not preclude torture, but is evidence of it; nor does it inherently imply a delusional state, psychosis, or faulty reality testing.<sup>26</sup>

The American Psychiatric Association (Diagnostic Statistical Manual,) does not overtly recognize these principles,<sup>27</sup> but engages in outright fraud, by use of 19<sup>th</sup> century diagnostic methodology; to silence victims of rape, political opponents, and conceal serious human rights abuses, when it abuses psychiatry as a form of punishment, censorship, and as a weapon.<sup>28</sup>

The APA has disabling conflicts with Central Intelligence Agency, in developing these methods of 'Clean Torture,' which seldom leave physical marks, with the exception of cardiac, sexual, and other dysfunctions, which may lead to death.

These methods are not used to gain information, but inflict harms, (assault & battery,) on political opponents of the ruling party; under color of law. These acts constitute serious violations of human rights law.

Kraepelian diagnostic methodology, (currently taught in North American schools,) relies on an assumption that all social & political deviance is the result of genetic impurities, inherent in non-white races.

DSM methodology, when used by non-forensically trained persons, is in fact an apperceptive dyad, wherein the patient is an 'ink-blot', which sheds light on the personality & beliefs of the investigator, rather than the patient. These tests primarily screen for deviance, (from the investigators own personal norms, mores, and social beliefs,) rather than actual pathology.

To the standard American trained medical professional, there is no distinction between environmental stress disorders, and dark triad traits.

All emotional pathologies, (or social deviance,) are treated as delusional disorders, with predisposition to violence. It would appear, that stressful dyadic disputations have a disparate impact on allocentric (empathetic,) persons, whereas negative symptoms pursuant to psychopathy are not flagged, by use of these methodologies.

---

26 Also see: Plenum Series on Stress & Coping; and, Environmental Stress / Trauma, Lykaion, 2021.

27 Nor does the Public Relations group, "Physicians for Human Rights," which relies on the same methodology.

28 Hence the term, "Psychological Warfare." These otherwise salient facts are latent to non-forensically trained persons; to whom psychiatry is still a form of 'voodoo,' or witchcraft.

Sherif, Muzafer, "Psychology of Social Norms," New York: Harper & Brothers, 1936.

Cardiac, and other medical disorders, (stress related cardiomyopathy / pseudoangina,) which result from stress, and abuse are disregarded as malingering; rather than acknowledge their etiology, which constitutes evidence of crime. Documenting evidence of a crime, in the American medical system requires legal testimony; which these doctors refuse to do without bribes of \$3,000-\$6,000 on average (2020.)

This results in the social cleansing, of primarily victims of rape, and abuse; in American society.

These people lose opportunities to education, housing, and employment. This is no different than the treatment of victims of rape in countries such as Iran, or primitive pagan societies; and is also fundamentally anti-Christian.

At any given time, there are approximately a quarter of a million persons incarcerated in the United States, not for any criminal offense, but because they were experiencing such extreme mental anguish, and suffering, that their presence in society was so disruptive they had to be forcibly removed.

Whether it was State sponsored, or due to private violence, this amounts to millions of persons erased from society, since the passage of the Lanterman-Petris short act.

Combine these numbers with the forcibly disappeared in Latin America during Operation Condor offensives; and you have numbers matching, or exceeding those of the holocaust.

If one considers this against a background of a constant new influx of immigrants to the Americas from Europe, India, the Middle East, and Asia, you are left with the social cleansing, or demographic transition of an entire continent.

The only remaining persons in our societies are egocentric, and indifferent, to acts which constitute a Eugenic cleansing program, which has bred a society of psychopaths; What Triandis termed a "*Psychological Theory of Economic Growth*."

*(Also Known As: "American Exceptionalism," "Rugged Individualism.")*

Dissociative (ego-fragmentation,) disorders can, and are being deliberately induced by widespread use of "Threat Assessment Management," (Enhanced Interrogation, Clean Torture) programs, since the creation of the Department of Homeland Security Federal military police, in 2003; which deliberately target minorities, the underemployed, and political opponents of the regime.

*(TAM deliberately subjects the victim to increasing levels of stressful stimuli, and unwanted contact, until plausible justification to take custody of the victim can be obtained. At no point are victims of these programs ever allowed to speak with legal counsel, nor are these acts conducted within Due Process protections.)*

---

### **About the Author:**

Once a potential candidate for the Foreign Service Officer program, with dreams of one day running for Congress with a background in international Human Rights law, the author has spent the last two decades, (2000-2022,) the entirety of their adult life, at "black sites," being raped, beaten, and tortured; without the benefit of legal counsel, nor opportunity to confront allegations, which have never been made clear. Now, after multiple attempts at Political Asylum abroad, suffering from seizures, multiple organ failure, and denied medical care, we are attempting to relay the results of our findings, as our final act of Public Service to the American people.

Born in Oregon to a family with a history of U.S. Military service going back as far as Fort Davis Texas during the Civil War, Philadelphia during the Spanish Flu epidemic, Intelligence work in Italy during WWII, and other employment at classified facilities such as White Sands Missile Range; including Office of Naval Intelligence, at the Pentagon.
